

Keeping you safe at Signals

We want to make sure that we are doing everything possible to keep you safe as a visitor to Signals this summer.

We have put the following measures in place to provide a secure and fun environment:

We will operate a one way system during drop off and pick up. Signs and floor markings will help you with this

We will make sure that each participant has a clean table to themselves socially distanced around the room

We will make sure that where safe we have doors open to ensure good ventilation

We ask that parents and anyone over the age of 12 wear a face covering while in the building unless those young people over 12 are taking part in the activities

We will provide hand sanitiser in addition to the hand washing facilities located in the kitchen and toilet

We have a QR code registered with the NHS COVID -19 App this will be displayed at the entrance and inside the workshop space for parents/ guardians, please make sure if you have the app that you scan this code before the start of the workshop

Where possible equipment sharing will be kept to a minimum, all participants will have access to their own macbook

Toilets, equipment, tables and chairs will be cleaned fully before and after use

All Signals staff present will take part in twice weekly workplace testing

We have reduced the length of our workshops and deliberately chosen some elements that can take place outside to reduce risks

If you have booked a place on one of our workshops and have any symptoms of COVID -19 please DO NOT attend the session

If you have any queries please do not hesitate to contact.
